Biography

Isabella Martinez is a second-year master's student in human systems engineering attending I/ITSEC for the first time as part of a university delegation. She's passionate about human-machine teaming and excited to meet people working on real-world training systems. While she's still figuring out her career path, Isabella wants to see how her coursework connects to defense applications and what internships or job opportunities might exist. She'll attend panels, walk the floor, and talk to anyone willing to share advice.

Future Talent

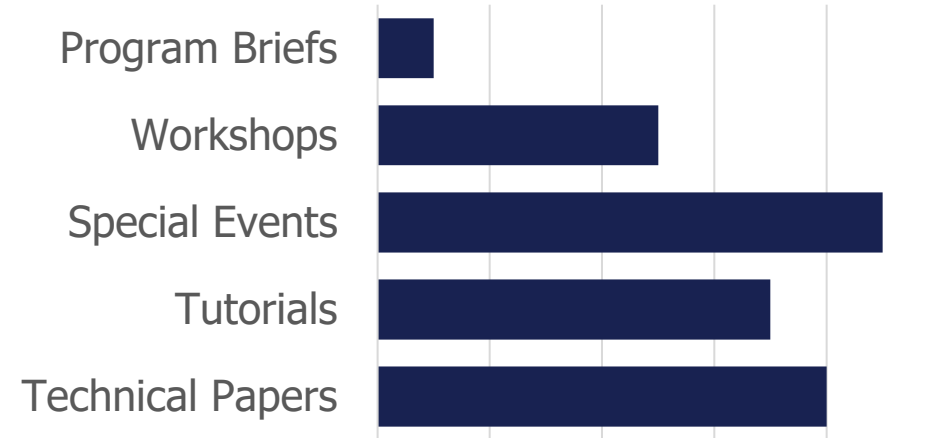

STEM

Motivation to Attend

To explore career paths in defense, simulation, and training, gain exposure to real-world applications of their academic work, and make early connections with potential employers or mentors. She's eager to learn, network, and understand where her skills might fit in the larger M&S ecosystem.

"I'm here to see what's out there—and where I could fit in once I graduate."

Interest Level

Common Needs/Tools

- Student-focused networking events and career fairs
- Exposure to real-world project briefings and early-career panels
- Opportunities to speak with mentors, recruiters, and younger professionals
- Clear wayfinding for "where to start" and "what not to miss"
- Discounts, travel assistance, or tips on navigating the event affordably
